

Step 1

Choose 10 pants and/or skirts from your closet. Start with those bottoms you wear the most. Line them up on the floor or on a bed. Write down these 10 pants / skirts on the attached sheet.

Step 2

Choose tops that coordinate with as many of your 10-bottoms as possible. Record your 40 choices on the sheet.

Step 3

Add in layering pieces where it makes sense (jackets and sweaters).

Step 4

Choose 7 pairs of shoes. These should include a variety of dressy and casual options.

Step 5

Finish your outfits with shoes and accessories.

Rule: If you can't create at least 3 different looks with a piece of clothing, it doesn't get to stay in your closet!

(Exception, of course, is with dresses).
